SFI讲师背景词云

许多从大量具体研究中提炼出来的普适概念和规律，例如标度不变性、分形和分维、无标度网络、幂次律，等等，都有其适用范围。在普适规律“指导”下的研究工作，首先要解决的重要问题就是阐明它们的适用范围。分析对于普适规律的偏离，有时反而会带来更有益的知识。普遍性的规律往往是对无限时空外推的结果，而具体的被研究的对象则总是有限的。

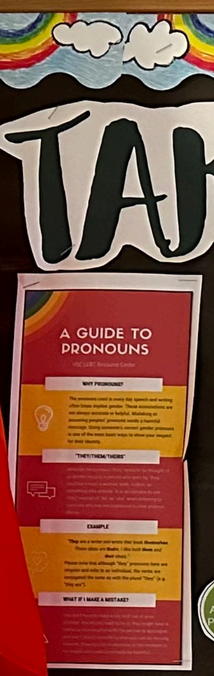
ASK ME ABOUT MY PRONOUNS



What's a pronoun?

You may be unfamiliar with the word "pronoun," but you use them all the time! Pronouns are used in place of a proper noun (like someone's name). We use pronouns most often when referring to someone without using their name.

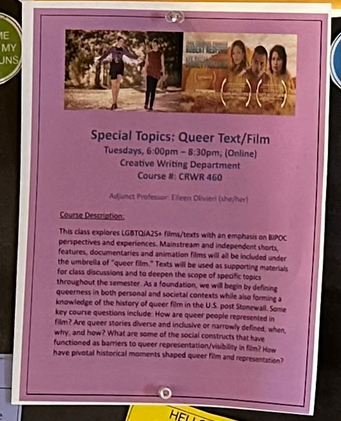
Example: Have you heard from Tom? He hasn't texted me back all day. *He is the pronoun.*

Why does it matter?

In English, our most commonly used pronouns (he/she) specifically refer to a person's gender. For queer, gender non-conforming, non-binary, and transgender people, these pronouns may not fit, can create discomfort, and can cause stress and anxiety.

A second study showed that in transgender youth, using correct pronouns and names reduces depression and suicide risks.

Having trouble understanding why this would upset someone? Think about your pronoun (it's probably "he" or "she"). Now imagine someone calling you the one you don't think of yourself as. Imagine them doing it over and over and over, even after you've corrected them.



WHY STATING PRONOUNS MATTERS

- IT HELPS EVERYONE FEEL INCLUDED AND RESPECTED
- IT ACKNOWLEDGES SOMEONE'S PRONOUNS AREN'T ASSUMED
- IT ENCOURAGES FOLKS TO THINK ABOUT THEIR OWN GENDER
- IT'S A WAY TO SHOW FOLKS YOU'RE SERIOUS ABOUT BEING AN ALLY
- IT ENSURES FOLKS GET EVERYONE'S PRONOUNS RIGHT

Using a transgender youth's chosen name at work, at school, with friends, and at home:

reduces depression symptoms by	reduces thoughts of suicide by	reduces suicide attempts by
71%	34%	65%

Russell, S., Pollitt, A., Li, G., & Grossman, A. (2018). Chosen name use is linked to reduced depressive symptoms, suicidal ideation, and suicidal behavior among transgender youth. Journal of Adolescent Health, 63(4), 503-505. doi:10.1016/j.jadohealth.2018.02.003

10 Things You're Saying When You Ignore Someone's Gender Pronouns

1. I know you better than you know yourself.
2. I would rather hurt you repeatedly than change the way I speak about you.
3. Your sense of safety is not important to me.
4. Your identity isn't real and shouldn't be acknowledged.
5. I want to teach everyone around me to disrespect you.
6. Offending you is fine if it makes me feel more comfortable.
7. I can hear you talking, but I'm not really listening.
8. Being who you truly are is an inconvenience to me.
9. I would prefer it if you stopped being honest with me.
10. I am not an ally, a friend, or someone you can trust.
